

## ***Bagby v. Commissioner of Internal Revenue, 102 T. C. 596 (1994)***

Fraudulent conduct in tax court proceedings, including document falsification, can result in severe penalties and the imposition of tax liabilities based on the most unfavorable filing status.

### **Summary**

Steven D. Bagby failed to file tax returns for 1985, 1986, and 1987 and engaged in fraudulent conduct by altering documents and forging signatures to mislead the court and the IRS. The Tax Court determined that Bagby's underpayments were due to fraud, resulting in significant tax deficiencies and penalties. The court applied the tax tables for married individuals filing separately, which increased Bagby's tax liability. Additionally, Bagby was subjected to a maximum penalty of \$25,000 under section 6673(a)(1) for instituting proceedings primarily for delay and presenting groundless claims.

### **Facts**

Steven D. Bagby did not file income tax returns for the years 1985, 1986, and 1987. He provided the IRS with altered copies of checks and joint tax returns, claiming they were evidence of filing and payment. Bagby forged his wife's signature on the 1985 and 1986 returns and altered copies of checks to match the tax amounts due on those returns. He did not cooperate with IRS requests for information and repeatedly ignored court orders. Bagby's wife, Kim L. Richardson, filed separate returns for the years in question, contradicting Bagby's claims.

### **Procedural History**

Bagby filed three petitions in the Tax Court challenging the IRS's determinations of tax deficiencies and penalties for the years 1985, 1986, and 1987. The cases were consolidated for trial, briefing, and opinion. The IRS amended its answer to increase deficiencies based on Bagby's married filing separate status and alleged fraud. After trial, the IRS moved for sanctions under section 6673(a)(1). The court found Bagby liable for fraud, assessed tax deficiencies, and imposed the maximum penalty for his misconduct.

### **Issue(s)**

1. Whether Bagby failed to file income tax returns for 1985, 1986, and 1987.
2. Whether Bagby's underpayments were attributable to fraud.
3. Whether Bagby substantiated deductions claimed for the years in issue.
4. Whether deficiencies and additions to tax should be determined using the tax tables for married individuals filing separate returns.
5. Whether Bagby is liable for additions to tax for failure to pay estimated tax.
6. Whether Bagby is liable for a penalty under section 6673(a)(1).

## **Holding**

1. Yes, because Bagby did not file returns for the years in issue and provided fraudulent evidence to suggest otherwise.
2. Yes, because Bagby's forgery and alteration of documents demonstrated an intent to evade tax for all years in issue.
3. Partially, as Bagby substantiated some deductions but failed to provide credible evidence for others.
4. Yes, because Bagby was married at the end of each year and did not file joint returns with his spouse.
5. Yes, because Bagby did not make estimated tax payments and did not meet any exceptions under section 6654(e).
6. Yes, because Bagby's actions were primarily for delay and his position was groundless, warranting the maximum penalty under section 6673(a)(1).

## **Court's Reasoning**

The court applied the legal standard that the IRS must prove fraud by clear and convincing evidence. Bagby's failure to file returns, coupled with his forgery and alteration of documents, constituted clear and convincing evidence of fraud. The court relied on the principle that an underpayment exists when no return is filed and that fraud can be inferred from a course of conduct intended to mislead or conceal. The court emphasized that Bagby's knowledge of his filing obligations, his deliberate falsification of evidence, and his non-cooperation with the IRS and court orders demonstrated an intent to evade taxes. The court also noted that Bagby's reliance on altered documents and forged signatures was groundless and intended for delay, justifying the imposition of the maximum penalty under section 6673(a)(1).

## **Practical Implications**

This decision underscores the severe consequences of fraudulent conduct in tax court proceedings. Practitioners should advise clients that falsifying documents or forging signatures can lead to significant tax liabilities and penalties, including the use of the least favorable filing status. The case highlights the importance of timely filing returns and cooperating with IRS requests and court orders. It serves as a warning to taxpayers that attempting to mislead the court or IRS through fraudulent means will result in harsh sanctions. Subsequent cases have cited Bagby to support the imposition of penalties under section 6673(a)(1) for similar misconduct.
